CERTIFICATIONS

Big Data Computing (NPTEL) :

- Hadoop, MapReduce, HDFS, Data Processing, Distributed Computing, and Scalability Techniques.

Embedded Systems (MSME Development Institute):

- Microcontrollers, Embedded C, and IoT Development.

LANGUAGES

- TAMIL
- ENGLISH

MINI PROJECT

E-Waste Disposal Facilate

- Designed and developed a user-friendly website that helps users locate the nearest e-waste disposal facilities based on their location.
- Integrated educational pop-ups on the website to inform users about harmful components in specific types of e-waste, promoting eco-friendly disposal practices.
- Utilized front-end technologies like HTML, CSS, and JavaScript for a responsive design and seamless user experience.
- Incorporated a backend system for data management using [Database/Tool] to store and update facility locations.

Travel Mobile App Design Project

- Designed and developed a mobile application for travel bookings with multiple user-friendly interfaces, including home, login, signup, registration, destination, booking, and payment pages.
- Created an intuitive and responsive UI/UX layout, ensuring seamless navigation and an optimal user experience across all platforms.
- Employed design tools such as Figma/Adobe XD for wireframing and prototyping the app's flow and structure.
- Worked on front-end development using technologies like Flutter/React Native to ensure cross-platform functionality.

DECLARATION

I, Hereby declare that the deails furnished above are true to the best of my knowledge and belief.
